SAHID ROMERO

SOFTWARE DEVELOPER

Mendoza, Argentina | +5492616686349 | sahidromer@gmail.com | LinkedIn: /in/sahidr | GitHub: /exeromer

Software Developer with a strong foundation in OOP and data structures. I have experience leading the full development lifecycle, from database design to scalable architectures. My focus on engineering fundamentals enables agile transitions between technologies, delivering versatile and robust solutions.

AREA OF EXPERTISE

Java, Spring Boot, RESTful APIs, Hibernate.	React.js, Tailwind CSS, JavaScript (ES6+), HTML5/CSS3.	SQL (MariaDB/MySQL), AWS (EC2, S3), Git, Docker.

KEY ACHIEVEMENTS

- **Project Leadership:** Led a development team for "El Buen Sabor" final project, coordinating tasks and ensuring 100% adherence to functional requirements and deadlines.
- **Full Stack Architecture:** Engineered a robust e-commerce architecture separating business logic (Java/Spring Boot) from the user interface (React), optimizing maintainability and scalability.
- **Freelance Success:** Delivered a high-performance, responsive landing page for "ANA" Analytics, improving the client's digital presence with a custom component-based design.

PROFESSIONAL EXPERIENCE

Project Lead & Full-Stack Developer | "El Buen Sabor"   **Jan 2025 – Sept 2025**

- Directed the development lifecycle of a web application for restaurant management.
- Programmed complex server-side business logic using Java and Spring Boot, creating a RESTful API to manage users, roles, orders, and billing.
- Designed and administered the relational database (SQL/MariaDB) to ensure data integrity.
- Integrated the backend with a modern Frontend interface built in React.

Freelance Web Developer | "ANA" Data Analytics | Remote   **Sept 2025 – Jan 2026**

- Designed and developed a responsive landing page from scratch for a data analytics service.
- Implemented the UI using React and Tailwind CSS, creating reusable components for a fluid user experience across devices.
- Deployed the solution ensuring optimization for performance and SEO.

EDUCATION

University Technical Degree in Programming   **2023 – 2025**
Universidad Tecnológica Nacional (UTN), Mendoza

- Software Engineering
- Algorithms
- System Architecture

QA Testing   **2023 - 2023**
MINDHUBLAB

- Focused on manual testing methodologies, test case design, and bug tracking lifecycle.

ADDITIONAL INFORMATION

- **Languages:** Spanish (Native), English (B2).
- **Certifications:** Argentina PROGRAMA (2021/2022).
- **Continuous Learning:** Currently specializing in AWS Cloud Architecture (Technical Essentials).
